

Mounting Rack

MR

Power supply units can be easily integrated with PS1223 cooling units.

Units are controlled through mains power distribution module (1U). It includes power key switch, emergency stop button, fuse elements, standard power supply 12V, 15W. Power supplies with different outputs are available under request (up to 24V, 150W).

Standard range includes racks of 9U, 12U, 16U, 20U, 25U height. Up to 6 units can be mounted into up to 25U height 19" racks.

As standard frames are powder coated in RAL7021 (Black grey), side wall - RAL7035 (Light grey).

Ordering information

Please indicate following points by inquiry:

- Rack height
- Quantity of power supply units
- Quantity of cooling units
- Quantity and height of other elements (if applicable)
- Mains voltage/phase(s)
